ENFORCEMENT ACTIVITY STATISTICAL REPORT

SASKATCHEWAN
CONSERVATION OFFICER

2002

PROVINCIAL ENFORCEMENT CENTRE

All statistics contained within this report are compiled and held at the Provincial Enforcement Centre in Prince Albert, Saskatchewan.

The Provincial Enforcement Centre has operated since 1988 to provide log on/log off services to Saskatchewan Conservation Officers. The Centre also maintains the Resource Intelligence Program to track illegal natural resource and environmental activity and has access to the Canadian Police Intelligence Centre (CPIC) as well as vehicle licence and driver information maintained by Saskatchewan Government Insurance.

In February 2000, the Provincial Enforcement Centre began providing services to officers of the Saskatchewan Highway Transport Patrol. Services provided are log on/log off, vehicle and person inquiries and warrant maintenance. Similar service is also provided to officers of the Revenue Enforcement Unit of Saskatchewan Finance.

In keeping with the established objectives of the Centre, the priority remains officer safety, followed by increased efficiency for the law enforcement role.

Special thanks go to the following people who assisted in producing this report:

3. ALTERNATIVE MEASURES

3.1 Overview

Alternative Measures are intended to provide an alternative to traditional prosecution and/or court processes for offenders facing charges laid by conservation officers.
It is the duty of the Attorney General's agent (Crown Prosecutor) to determine the appropriateness of alternative measures. Giving consideration to an offender's age, character, history and rehabilitative prospects, a conservation officer may recommend that it would be appropriate to use measures alternative to traditional prosecution.

The alternative measures program is not intended to be available for every offender and every offence. Rather, it is an acknowledgement that in some cases, because of the nature and circumstances of the offence and the offender, the public interest would be better served by a resolution outside of the traditional criminal process. The objective of alternative measures programs is to have the offender accept responsibility for the offence without going through the formal court process. It is essential, therefore, that the offender takes responsibility for his actions.
The program is generally aimed at offenders without substantial records of resource or environmental offences.
